PRIVATE DUTY NURSING

ADULTS

“ Too often we underestimate the power of a touch, a smile, a kind word, a listening ear, or the smallest act of caring - all of which have the potential to turn a life around. ”

| Leo Buscaglia |

OUR NURSES DO EVEN THE SMALL THINGS WITH CARE.

Well Care Home Care's dedicated and compassionate nurses understand the unique challenge of caring for medically fragile adults. We are experts in home care and we also provide customized hourly nursing care that supports and cultivates the mental, physical, and emotional well-being of our patients and their families.

At Well Care we also understand the importance of providing extensive on-going training for our nurses.

Many of our patients require ventilator support, seizure disorder care, assistance with G-tubes, and a variety of other medically complex care needs, and our nurses provide them with the highest standard of care. We also have on-site respiratory therapists for educational support and knowledgeable RN educators to ensure our nurses are always up-to-date on the latest healthcare innovations and techniques.

Our mission is to keep our communities happy, healthy and at home, and to nursing care 24 hours-a-day, seven days a week, including holidays.

If you would like more information about any of our private duty nursing services, please call us at 888-815-5310.

Well Care is committed to the highest standards and bringing out the best in your loved one.
